(c) the details of steps taken or proposed to be taken for assured and regular supply or naphtha fuel to various power projects in the country;

(d) whether Government have made any agreement with any foreign country for regular supply of naphtha fuel; and

(e) if so, the details thereof?

THE MINISTER OF POWER (SHRI SUSHILKUMAR SHINDE): (a) to (c) No power project is affected due to poor reserve of Naphtha fuel as there is no shortage of Naphtha for power projects in the country.

(d) No, Sir. There has been a reduction in demand of Naphtha for power plants mainly because of increase in the cost of Naphtha by about 150% over the last 5 years. As a result of the reduced off-take by the power plants, there is a surplus situation in Naphtha and the same is being exported by Oil Marketing Companies (OMCs).

(e) Does not arise.
